Slaughter Pig Marketing Summary

This week
<p>And so we now arrived at the last meaningful trading week of the year. Most of the major processors planned near full kills in the run up to Christmas. Supply was enhanced slightly by breakdown affected pigs rolled out of the previous week. Slaughter weights seem to be falling at last, although restricted movements over the next couple of weeks may reverse this trend. Prices generally stood on, although one processor saw fit to play Scrooge and drop their contribution a penny. The fresh meat market saw decent demand for the early part of the week, and prices were a strong stand on. Cull sow prices took a hit however, with a large supply seeing prices fall 4p. European prices were a sea of red domestically with Germany and its near neighbours losing upwards of 5 eurocents. These falls were counteracted in sterling terms however, as the Euro strengthened to end the week up 1.14p at 88.25p.</p>

Weaner Marketing Summary

w/c 10/12/17
<p>Supplies of both 7kg weaners and 30kgs stores tended to be more in harmony with demand this week, and there was some evidence of autumn infertility trimming numbers available from some producers. Spot prices trended lower as a result. The prices announced by the AHDB saw the weighted average for a 30kg pig rise by £3.49 to £56.41 and the weighted average for a 7kg rise by 34p to £40.50.</p>
